## 1. 좋아하는 해변

South Korea is filled with beautiful beaches, and one of the beaches that I often visit is Jumuniin Beach which is located on the East Coast of Korea. My hometown is located near the coast, and there are many beaches nearby, but I visit Jumunjin Beach most often because it takes only fifteen minutes to get there on foot from where I live.

It's a pretty popular beach because it's famous for the gentle white sand and cool water during the hot summer. Also, there are a lot of places to eat and drink. Restaurants and coffee shops line up along the beach. Many people go there to enjoy their vacations. It gets very crowded when the peak season comes.

Plus, it gets extremely crowded in July and August, which are the hottest and the most humid months in Korea. During the scorching hot summer, many Korean families visit beaches or lakes to relax. So, because it is close to my house and pretty nice, Jumunjin is one of my favorite beaches. That's it. Once again, one of my favorite beaches is definitely Jumunjin Beach.

## 2. 해변 가서 하는 일

I normally go to the beach with my friends, family and even dogs because I am a huge beach-goer. When I get to the beach, I dive into the water to swim and to cool off. Sometimes, I get a tan. Also, I like to take a walk or go jogging along the beautiful coastline. In the morning, I love to listen to the sound of calm waves accompanied by the sunrise while walking along the beach. Plus, I love breathing the fresh ocean air. After lunch, I can watch the sunset while sitting on the sand. At night, I drive along the beach for a while and have some seafood near the beach. I also enjoy setting off firecrackers. So, these are the things I normally do when I'm at the beach.

### 3. 기억에 남는 해변여행/가족, 친구 집에 방문 경험/명절기억

Well, I like visiting my uncle who lives in Busan. Because Busan is a famous vacation spot with beautiful beaches, I try to visit my uncle when I get time off.

I remember when I visited my uncle a few years ago. I took the bullet train and it took me about two and a half hours. It was quite tiring, but everything changed as soon as I saw my uncle. After we dropped my bag, we took the subway to the main streets of Busan. After that, he took me to a famous restaurant which I always wanted to try because they received good reviews from their customers. When we walked into the restaurant, it was full of people. Because of its popularity, we had to wait 30 minutes to be seated. The food was great probably because we were all very hungry. After eating, we went to Haeundae Beach. We set off some firecrackers and had a great time together. We also walked along the beach and took some pictures. Overall, I had a really great time in Busan, and it was definitely the best trip I have ever had.
