Magic template

1. 본인이 사는 지역에 진행되는 모임들 묘사

Well, I have social gatherings from time to time. Since my friends and I have been busy with our lives, we don't get to ^{sometimes} see each other that much, but we try to meet up as much as we can. We sometimes grab some drinks at bars and talk about general issues. I also have staff-dinners with my co-workers. It's a great chance to bond with them and talk about the issues we have at work. ^{colleagues} Plus, I also go to restaurants or bars for special occasions such as birthday parties, year-end parties, farewell and welcome parties. I enjoy spending time with my people because it always helps me build strong relationships with them.

That's it. These are the get-togethers I have with my friends or colleagues.

2. 본인이 참석했던 모임에서 있었던 기억에 남는 에피소드

I don't remember a particular experience I had while spending time with my friends, but the only thing I remember is when I met a drunken guy at a bar. I once went to the bar to meet up with my friends from college. I was having fun with my friends over some beers. Out of the blue, one guy came into the bar and started to talk to himself very loudly. ^(suddenly) It was easy to tell that he was pretty drunk, I mean, wasted. A guard tried to talk to him and make him leave the place. However, he kept talking loudly and started to talk to the people at the bar. I didn't think he would leave any time soon. Eventually, I decided to leave the bar with my friends. I don't know how he got so drunk during the daytime. However, I think people should be polite in public.

Well, that's probably the only incident I had when I had a gathering.

3. 모임 관련 사람들이 갖고 있는 우려 설명

Well, when it comes to having gatherings, the only thing I remember is watching the news about Coronavirus. Coronavirus is a pandemic which first started in Wuhan city of China in 2019. It has spread all across the world and many countries declared a national health emergency. And the death toll went over 2 million. Because of COVID-19, it's mandatory to wear masks in public. Many people got tested positive and got infected in public. In order to contain the virus, the government recommended people not to go to public places. So, when people get together, they prefer to go to the places that can accommodate only a few people at once. Washing or sanitizing your hands regularly can also help.

Well, that's it. That's probably the only thing I can think of at the moment.
