★ 1. 좋아하는 영화장르

There are various types of movies I like to watch. In fact, I don't have a particular type of movies I watch. I enjoy watching all kinds of movies depending on the situation. Sometimes, I like to watch romantic comedies because they remind me of someone from the past. However, there are times when I feel like watching action movies. The action scenes help me (to) relieve my stress (or help me kill time) while watching them. For example, a recent action movie I enjoyed was _____. I could concentrate easily on the movie because it had a simple storyline (or exciting action scenes). Plus, I sometimes just watch whatever is popular. I usually read movie reviews and watch the movie that tops the charts. Watching trailers of newly-released movies also helps me decide which movie to watch. I guess that's it. All in all, I like watching all kinds of movies depending on the situation.

The movie theater that I typically go to is a multiplex theater called CCB. Since my workplace is just across the street, it is convenient for me to watch a movie after work. It takes 10 minutes from where I work. The movie theater is always crowded with many people. There are various places to eat and shop such as restaurants, coffee shops and stores. Also, there is the box office and many kiosks where people line up. Plus, there are various kinds of theaters such as 3D, 4D, and even IMAX screens. I normally purchase popcorn and drinks before the movie starts and read reviews of the movie.

That's it. That's all I can think of at the moment. Overall, these are the reasons why I like to go to the movie theater.

☆ 3· 기억에 남는 영화/좋아하는 영화 배우

If I really enjoy the movie, I normally become to like that actor or actress in the movie./If there is an actor I really like, I usually enjoy watching all the movies he starred in.

The most memorable movie I enjoyed was an action movie called _____. I think _배우_ was a perfect cast as __주인공__ in __영화__. I really like this movie because it has a simple storyline and exciting action scenes. I also enjoyed the original soundtrack of the movie. (I like the lines of the movie as well.) I could definitely understand why the movie did very well at the box office.

The most memorable movie I watched in the past was a Korean movie called "Parasite." It starred some of the top actors in Korea. It satirizes issues of social class. The director of the movie, Bong Joon Ho, is definitely one of the best directors in Korea. It made history by winning 4 Oscars.

I think the movie was killer! I really enjoyed the storyline of the movie.

I would recommend this movie to other people because it's definitely worth watching. I think it's one of the best movies I've ever seen.

★ 4. 과거/현재 영화작품들의 변화

Korean movies have changed a lot over the years. The most noticeable change (the biggest change) is the use of computer graphics. In the past, the computer graphic technology was not developed that much. Because of that, the viewers could easily notice the use of computer graphics, and it was somewhat awkward and funny. However, these days, there have been massive improvements in the movie industry through the use of computer graphics. For example, ghosts and other imaginary creatures appear to be unbelievably real. Not only that, 3D and 4D films take the movie experience to a whole new level. Some say, because of this, the price of movie tickets has doubled in the last few years. But, I think the price increase is reasonable.

Well, once again, I would say that Korean movies have become so much better than the past.

★ 5. 최근 뉴스에 언급된 영화 배우/이슈

Well, I can't think of anything right now, but the only thing I remember is about two famous Korean actors dating after co-starring. (getting married after dating for __years/divorcing after _years of marriage)

_____ and _____ confirmed that they have been dating for 8 months. They are definitely one of the leading actors with many fans all around the world. I was shocked when I first heard the news, but soon after, I thought they would be a nice couple.

According to the news, the two became intimate friends as co-stars and developed such intimacy into a romantic relationship after their TV drama ended. Their agencies also confirmed that the pair are in a relationship. (And the actress wrote how grateful she is to meet the guy on her Instagram.) Both of them earned fame when they were young, and they are still loved by many people. I also have good impressions of these two. I hope they stay as a couple as long as possible.

Well, that's it. There is always something interesting in the media, but this is the only news I can think of at the moment.
